## AGAINST LUNCH VENDORS.

.....................

Restaurant and Grocerymen Win Case in Police Court.

The case against the lunch vendors who were arrested several days ago was decided in favor of the prosecutors in the Police Court yesterday afternoon and all the men on trial were fined \$1 and costs. The case was tried before a jury and was an exceptional one on that account, as a jury is almost an unknown quantity in the Police Court. Six cases against other lunch men will be heard in the Police Court this afternoon and they will be tried before a jury,

#### AMUSEMENTS.

Sensational melodramas are going to be more popular this season on the popularpriced circuits than ever before, unless all signs fail. The present week is the third of the Park's new theatrical year, and so far five molodramas have appeared there. The regular patrons of the higher class theaters become tired of any one particular riety of amusements in the course of a month of theater-going. But the clientele of the Park and theaters of its class seem to prefer melodrama, pure and simple, and they are likely to get their fill of it this season, as more melodramatic productions The Park's present offering, "A Human Slave," is drawing overflowing audiences, and the author of the piece, William L. Roberts, is already hard at work in Chicago writing a new sensational melodrama to be produced by the same management in February. "A Human Slave" will conclude its successful engagement with two performances to-day, and to-morrow "East Lynne," the favorite old emotional play will come to the Park for the latter half of the week. Inez Forman is at the head of the company, which is said to be a very longer.

The Al G. Field Minstrel Company, which is to appear at English's for a single performance to-morrow night, started on its season's campaign last week with a tour of the Ohio towns. The show should be in good working order when it reaches Indianapolis, after a series of performances in the smaller places. The Field entertainment is of a spectacular nature this year, with much finer scenic and electrical effects than have ever been used before in a burnt-cork show. The company is made up of some of the best known minstrel men in the country. The principal comedians are Al G. Field, Harry Shunk, Tommy Donnelly, John Blackford and Paul la Lond is at the head of the vocal contingent, which includes Rees Prosser, Matthew Keefe, Joseph E. Blam-William H. Atkinson and George Pearce. Doc Quigley, Tommy Hayde, Lester Fairman and other famous dancers are with the company, and several high-class vaudeville acts are down on the programme, chief among them being the wonderful equilibristic exhibition by the Leighs, two European performers who have never been seen in this city.

The part was a small one, but she played it so well and made such a handsome appearance in the character | Mrs. Stanton of the girl of the Paris wine shops that she won many other hearts besides that of Daniel Frohman. The young actress hails from a small town near Chicago and has been on the stage only a few years.

Some comic operas are forgotten after ing stage history until they are accepted as standard pieces. Such an opera "King year and is just as great a favorite as ever. The company which is to present this day and Tuesday evenings is said to be one of the best organizations Manager | street. Henry W. Savage has ever got together. "King Dodo" made a great hit in Indianapolis when seen here the season before last, and many local theater-goers have been desirous of receiving a second visit from the tuneful production. The sale of seats for the engagement will begin Friday morning at English's box office.

Manager Shafer Zeigler, of the Grand Opera House, is not entirely satisfied with the new decorations in the lobby of the popular vaudeville theater, and the walls and ceiling are to be "done over" again by the painters before the opening of the house a week from next Monday. The auditorium decorations are almost finished, and New the several new stage settings and drop curtains will soon be in readiness for the first performance of the season. Manager Zeigler and Press Agent Louis Buckley are now giving their attention to the final preparations for the opening. A list of the principal attractions to be seen during the theatrical year at the Grand is now being arranged. Many of the very best acts on the vaudeville stage have been booked.

The dramatic version of Rudyard Kipling's "The Light That Failed," in which Klaw & Erlanger will present Forbes Robertson and Gertrude Elliott this season, is arranged in a prologue and three acts. Constance Fletcher, who writes under the pen name of "George Fleming," is the author of the play. There is said to be a delightful atmosphere of reality about the entire piece, while the dialogue, which is mostly Kipling's own, is refreshingly virile. The company selected to support the English star and his beautiful American wife will be a very strong one.

### The Point of View.

A certain young woman was very diswretchedness. But even rushing through the sweet-smelling summer air in a smoothlyrunning automobile failed to restore the Mr. Scott Smith and Mr. Ward Dean have for a moment at a little home by the roadside, unpainted and unshaded, and bearing cafe, a step or two ahead of her friend, left this week for a visit in Atlantic City | every evidence of the direst poverty. "Now, just look at that," said the pessimistic young woman. "What pleasure can life afford to dwellers in such a habitation?" Just then a jolly little boy pranced out of the gate, a broad smile irridating his countenance, and so full of happiness was he that he could not walk sedately, but hopped along and fell all over himself. Picking himself up he said to the young woman: "Oh, Miss, we-uns hev got a new washpan!" The young woman smiled. "Verily," thought she, "the joy of life lies, after all, not in the multitude of one's possessions."

New Orleans Times-Democrat. A drink for the sick that is given as hospital kitchen recipe calls for the beaten yolk of an egg added to a glass of rich milk, and mixed with the white beaten up with a tablespoonful of sugar and one sherry or whisky, as ordered by the doctor. This recipe is similar to but not as good as the regular English caudle. To make that the sugar and the egg yolk are beaten thoroughly together, the white of the egg is beaten separately very stiff, then beaten into the yellow. The milk is then poured on boiling hot, and the wine or whisky added last. Nutmeg or any flavoring essence may also be put in. It is a delicious and most stimulating and nourishing drink, and is much lighter and easier to take thus made with the hot milk than

TORIES OF THE

"The way of the transgressor is hard," bu there is one man in Indianapolis who benot be nearly so rough as that of the automobilist, especially at critical periods, such as this story will explain.

The young man who made it possible for this incident to be written, and it might be well to say at first that this is a true story, is an enthusiastic devotee of the horseless wagon and he is also very enthustastic concerning a young woman who lives in an apartment house on North Delaware street. The young woman is athoon-and enough of an income to assure tractive and has many admirers. She is one of those persons who knows just what to say at just the right time, is decidedly stylish and has a ready wit and plenty of "Intermezzo" is an easy lesson, also. A tact. She is very fond of the young man who owns the automobile, but her affection for him does not prevent her enjoying the joke which concerns both.

Now, this young man has a weakness for fried chicken and the young woman also evinced a desire for this delicacy, which led him to plan a ride to Millersville for supper one evening a short time ago. Along in the early part of the afternoon, while the girl was buried in the most interesting part of a novel, the telephone rang and she was invited to take a spin to Millersville. She was delighted and would be ready at the appointed hour. It so happened that her friend had invested in a new machine and was anxious that she should pass judgment. Shortly after 5 o'clock the young man arrived, attired in the most appropriate summer garb, for he is a veritable fashion plate, and always correct in his dress. The pretty flannel suit and stylish tan shoes, above which was revealed a glimpse of hose of the latest pattern, all made him an obthe young woman. They rode a long time about the city,

she admiring the machine and dropping a ed for Millersville. On their way out they passed two speeding machines, which in spired the remark from the girl that she "wouldn't have such abominable things which made so much noise and rode so shaky and how much nicer an electric This pleased her companion immensely and he turned on all the power, just to show how fast his machine could run. Millersville was reached, supper eaten and the trip to town begun.

The young woman was expressing her thanks to the young man for the delightful time she had had and venturing other effusive remarks that come on such occasions, and the two were enjoying themselves greatly as they spun along. In a short time the machine began to slacken its speed, but the girl thought nothing of the incident-for-well, it was so nice to ride slow once in a while. Suddenly, and without warning, the auto stopped, or hesitated and then stopped. Even then the young woman did not suspect that there was such a thing as the power giving out, but a masculine exclamation which she was not quite sure she understood soon convinced her that there was something

And something was wrong. In vain the young man tried all the tricks known to drivers of electric machines. The auto If a machine would only come along and take them back to the city! But no such luck was theirs. The only noises that could be heard as they discussed the situation, the young man doing more "cussing" than discussing, was the chirp of crickets and the barking of a dog in a near-by field. The situation was interesting, but it did not last long, for soon the young man, seeing he was "up against it," told the girl to guide and with a stout and resolute heart and a firm desire to tell the dealer who sent him out without the battery properly charged what he thought of him in language that would not be good Sunday reading, he set out. After three miles of pushing he was at last rewarded by seeing a farm house, to which telephone wires were attached, and knew his task was over. He called up the firm and in machine to the rescue. The young man and his girl were brought safely back to town, dusty and weary, and it is stated reliably that he has not suggested an automobile ride since, much to | behind the bars at the police station on a

Some one told him it was the committee to which everything that the other committees would not handle was referred. "I that so, I that so," replied the little Jew and sat down. H. F. Holland, president of the Holland Palace Car Company, returned yesterday from Wilmington, Del., where he has been superintending the final work on the interurban sleeping cars being built for service between Indianapolis and Columbus. Some delay has been caused by the strike of the plushmakers in the East, and it may be that the upholstering of the chairs will be mpossible. The trucks and motors of the two cars will be shipped next week, but Mr. Holland says that it will be impossible to get the cars together before the middle of the month. One of the cars will be shipped to Columbus. While East Mr. Holland made estimates on twenty-five new combination sleeping and dining cars for service in Indiana and Ohio.
